

AMNA ASIF

Software Engineer

Phone: +92 3361577502 | Email: amnaasif320@gmail.com | Islamabad, Pakistan | [LinkedIn](#) | [GitHub](#)

PROFESSIONAL SUMMARY

Software Engineering student at FAST-NUCES Islamabad with hands-on experience in Machine Learning, AI applications, and Full-Stack Development. Recently, I've expanded my technical horizons into the realms of AI/NLP for intelligent chatbots and deep network security through CAVE-OT vulnerability scanning using Suricata. Skilled in Python, Java, React, Node.js, PostgreSQL, Docker, and AWS, with a passion for developing intelligent software systems.

PROFESSIONAL EXPERIENCE

FlyRank AI

July 2026 - September 2026

Machine Learning Intern

- Developed machine learning solutions using Python and real-world datasets.
- Performed data preprocessing, feature engineering, and model evaluation.
- Collaborated using Git and GitHub while following professional development workflows

EDUCATION

FAST – National University of Computer and Emerging Sciences (FAST-NUCES)

Bachelor of Science in Software Engineering

Aug 2022 – Dec 2026

Islamabad, Pakistan

PROJECTS

Context-Aware AI Vulnerability Engine (Final Year Project) | *Python, PostgreSQL, Suricata, Machine Learning*

- Developing an AI-driven vulnerability analysis platform for Industrial IT/OT networks with real-time monitoring and attack path analysis.

ProductHub – Cloud-Native Product Management Platform | *AWS, React, Node.js, Docker, PostgreSQL*

- Built a cloud-native product management platform with secure authentication using React, Node.js, Docker, PostgreSQL, and AWS.

Autoimmune Diagnosis Assistant | *Python, Streamlit, Machine Learning*

- Developed a Streamlit-based machine learning application for autoimmune disease prediction with rule-based validation.

Bus Ticket Management System | *MERN Stack*

- Built a web-based bus ticket booking platform featuring user authentication, seat selection, and route management.

CERTIFICATIONS

- [IELTS Academic](#)
- [AI Fluency: Framework & Foundations \(Anthropic\)](#)
- [Claude with Google Cloud's Vertex AI \(Anthropic\)](#)
- [Model Context Protocol: Advanced Topics \(Anthropic\)](#)
- [Dean's List of Honors](#)

TECHNICAL SKILLS

Programming: Python, Java, C++, JavaScript, C# **Frontend:** React, HTML, CSS, Bootstrap **Backend:** Node.js, Laravel, REST APIs

Machine Learning: Scikit-learn, Pandas, NumPy, Streamlit **Databases:** PostgreSQL, MySQL, MongoDB

Cloud & Tools: AWS, Docker, Git, GitHub, JIRA **Methodologies:** Agile, Scrum, Object-Oriented Programming (OOP)
